

# Nantucket Conservation Foundation

## THE IMPACT OF YOUR SUPPORT

Over our 60-year history, NCF has evolved from protecting less than an acre of land to stewarding over **9,000 acres** across the island, encompassing nearly one-third of Nantucket's landscape.

Many **species of rare plants and wildlife** thrive on our properties and require **monitoring and protecting**. Our conservation efforts include **managing heathlands and grasslands, inventorying and protecting endangered species, and studying coastal ecology**. Our Department of Ecological Research, Stewardship, and Restoration uses the information provided by this work to make **detailed, ecologically-based management plans** for the Foundation's properties.

As our land acquisition and scientific stewardship increased, so did our dedication for including the Nantucket community in all aspects of our work. Our **educational programs** and popular **Mornings for Members Walks** and **Ecology Excursions** facilitate interaction with Foundation representatives who can provide detailed information about our properties. We also offer a complimentary **Wellness Series** during the summer months and serve as a resource for the local island schools.

**Foundation Circle, Conservation Fellows, and Milestone Partners are those members of the Nantucket Conservation Foundation, who by their generous, unrestricted annual giving are recognized as a distinctive part of the Foundation's base of support.**

A **\$250,000** unrestricted gift or a pledge paid over a period of up to five years qualifies donors to the **Foundation Circle**.

A **\$125,000** unrestricted gift or a pledge paid over a period of up to five years qualifies donors as **Conservation Fellows**.

A **\$50,000** unrestricted gift or a pledge over a period of up to five years qualifies donors as **Milestone Partners**.
